## Will You Join Us?

### We believe:

**EVERY CHILD without exception desires a married mother and father.**

- Having a mother and a father is common to every human person.
- Isn't it natural to want a married mother and father?

**A MARRIED MOTHER AND FATHER ARE GOOD for the development of the child and provide the anchor for the family – the first school of love, peace, and justice.**

**The COMMON INTERESTS OF CHILDREN are more important than the private interests of small groups of adults.**

**THE PUBLIC INTEREST in marriage is to provide the foundation of the family with a mother and a father for children.**

**SOCIAL JUSTICE BEGINS WITH THE FAMILY, which is “*the original cell of social life*”.** (Catechism of the Catholic Church, second edition, § 2207)

- Social institutions must be judged by how well they support the family.

Children born out of wedlock  
= **40%**

Children living apart from  
their biological fathers = **34%**

Growing marriage gap between  
the middle class and the poor.

### Who is Advocating for the Children?

Children completely depend on adults to advocate for their interests.

- Children don't vote.
- Children don't organize.
- Children don't raise money or make political contributions.

Schools are teaching marriage is equivalent to cohabitation, single parenthood and same-sex relationships.

Schools are teaching sexual promiscuity of all kinds is normal and healthy if done “safely” – sexually transmitted diseases are growing.
